

## Bug Report: #BR0004

Bug ID		#BGID0004
Tester	DenisDennisov	
Date (submitted)	06.09.2024	
Title	Incurent colors array	
Test Suite	TS0001	
Test Case	TCBS0013	
Bug Description		
Summary	This test checks the standard operation of the sorting algorithm	
Screenshot	See attached screenshots	
Platform	Windows 10 Home	
Testing IDE	Visual Studio Code 1.93.0	
Administrative		
Priority	High	
Severity	Medium	

### Additional Notes:

#### Procedure:

1. Run the algorithm (Algorithm.exe).
2. In the console that appears, in the first value (Enter colors array (separated by a space)), enter the array of colors in upper and lower case, separated by a space without signs (кК с3).
3. In the second value (Enter colors order (separated by a space)), enter the order of colors separated by a space without signs (K 3 C), with which the array from the first value should be sorted.
4. Run the algorithm.
5. Write down the results.

## Bug Report: #BR0004

### Expected Result:

Error or error text of incorrectly entered color array data (Error: Please, enter current colors. ).

### Actual Result:

Test Failed in line 183. Output array: (Rusult is empty.).

### Screenshots:

```
=====
— WARNING!!! Test case 13 - FAILED. —
NAME: Incurrent colors array
Input array: κK c3
Input order: K 3 C
Expected result: Error: Please, enter current colors.
Actual result:
TEST FAILED - IN LINE 183.
