

Bug Report: #BR0002

Bug ID		#BGID0002
Tester	DenisDennisov	
Date (submitted)	06.09.2024	
Title	Sorting elements with symbols	
Test Suite	TS0001	
Test Case	TCBS0005	
Bug Description		
Summary	This test checks the standard operation of the sorting algorithm	
Screenshot	See attached screenshots	
Platform	Windows 10 Home	
Testing IDE	Visual Studio Code 1.93.0	
Administrative		
Priority	High	
Severity	Medium	

Additional Notes:

Procedure:

1. Run the algorithm (Algorithm.exe).
2. In the console that appears, in the first value (Enter colors array (separated by a space)), enter the color elements separated by a space without commas, but with symbols (-C @C !K+).
3. In the second value (Enter colors order (separated by a space)), enter the color order separated by a space without signs (3 C K), with which the array from the first value should be sorted.
4. Run the algorithm.
5. Write down the results.

Bug Report: #BR0002

Expected Result:

Error or error text of incorrectly entered color array data (Error: Please, enter current colors.).

Actual Result:

Test Failed in line 111. Output array: (Rusult is empty.).

Screenshots:

```
=====
