

# Bug Report: #BR0006

<b>Bug ID</b>		#BGID0006
Tester		DenisDennisov
Date (submitted)		06.09.2024
Title		Incorrect array
Test Suite		<b>TS0001</b>
Test Case		<b>TCBS0015</b>
<b>Bug Description</b>		
Summary		This test checks the standard operation of the sorting algorithm
Screenshot		See attached screenshots
Platform		Windows 10 Home
Testing IDE		Visual Studio Code 1.93.0
<b>Administrative</b>		
Priority		<b>Normal</b>
Severity		<b>Medium</b>

## Additional Notes:

### Procedure:

1. Run the algorithm (Algorithm.exe).
2. In the console that appears, in the first value (Enter colors array (separated by a space)), enter words separated by spaces with signs, without commas (Error! Oh! Oh! Error! Oh! Error!).
3. In the second value (Enter colors order (separated by a space)), enter the order of words, separated by spaces with signs, without commas (Oh! Error!), with which the array from the first value should be sorted.
4. Run the algorithm.
5. Write down the results.

## **Bug Report: #BR0006**

### **Expected Result:**

Error or error text for incorrectly entered color array data (Error: Please, enter current colors.).

### **Actual Result:**

Test Failed in line 201. Output array: (Oh! Oh! Oh! Error! Error! Error!).
